

Unika Danmark A/S Appoints New CEO

Effective from January 1, 2024, Axel C. Thøgersen from Silkeborg has been appointed as the new CEO of Unika Danmark A/S in Ans.

Axel C. Thøgersen, 53 years old, he holds a degree in industrial engineering. He comes from a position as CEO at Omme Lift A/S, where he has been for over 5 years. Additionally, he has substantial experience in production, supply chain, and sales from his roles at companies such as Novo Nordisk and Grundfos. At Grundfos, he gained 7 years of international experience in Hungary and Germany.

Therefore, he is a highly experienced CEO who, as part of a generational change, takes over the helm at Unika Danmark A/S after owner-manager Bo Johansen. The two brothers, Steen and Bo Johansen, who took over Unika Danmark A/S from their father, have managed and developed the company for over 40 years, making it one of the country's leading high-precision tool manufacturing and plastic injection molding companies. As a subcontractor, the company serves several renowned Danish companies that prioritize quality, delivery reliability, and precision.

Upon his appointment, Axel C. Thøgersen stated: "I am looking forward to taking Unika to the next level in collaboration with the team. I am grateful that Bo, Steen, and the rest of the board have entrusted me with this task. The technically demanding injection molded components and tools produced by Unika demonstrate a very high level of competence among the employees and have given the company a strong position in the market among quality-conscious customers. Combined with the high level of service offered to customers, it provides a very good basis for continuing Unika's positive development."

Owner-Manager Bo Johansen said: "I am convinced that our new CEO has the right qualifications and values to elevate the management of our company to a new level. In the future, I will support the management through my board work, as well as assist in leadership transformation and in specialist areas where my skills can be further utilized."

In its latest fiscal year, Unika Denmark A/S had a turnover of DKK 136 million and employs approximately 100 employees at its factories in Ans, located between Silkeborg and Bjerringbro.
